

WESER & Kollegen

Smart Physicist or Electrical Engineer

You have completed your studies in physics or electrical engineering, preferably with a PhD. You are now looking for a promising new challenge, where you can bring in your scientific education and analytical skills so as to make a difference.

A traineeship for becoming a patent attorney and professional representative before the European Patent Office will offer exceptional career prospects, wide-ranging activities, and the opportunity to continue your education at the interface between technology and law.

For our patent attorney firm in Munich, we are looking for a

Patent Attorney Trainee (m/f) Physics or Electrical Engineering

with consistently excellent grades, fluent written and spoken English, and a talent for solving problems in a well-structured manner.

For more than 50 years, our firm has been advising primarily international world-market-leading clients in demanding fields of technology and law, and we see ourselves as a young and innovative team for which quality has the highest priority. With this ambition, we are also involved in the training of candidates for the European Qualifying Examination and are publishers of a self-editable electronic commentaries on the European Patent Convention as well as on international patent law (www.ipappify.de). Accordingly, we are offering not only an interesting job in an attractive working environment, but also optimal conditions for your education.

With us you have the opportunity to contribute in a variety of ways from the very beginning, and the best perspective of long-term involvement in our partnership.

Are you interested? We look forward to receiving your application documents, which can be sent to career@weserkollegen.de.
